Professional Summary

I am an undergraduate student pursuing a Bachelor's degree in Information Communication Technology (ICT) at the Technical University of Mombasa, expected to graduate in 2026. I am passionate about technology, actively building web applications, and gaining hands-on experience in systems, networks, and software development. I am proficient in C++, HTML, CSS, JavaScript, and currently learning React.js. Recently completed an industrial attachment where I gained real-world IT support and network administration experience.

Education

Technical University of Mombasa

Bachelor's in Information Communication Technology (ICT)

Expected Graduation: 2026
